1. INTRODUCTION

Trade and Investment KwaZulu-Natal (TIKZN) is a provincial trade and investment promotion agency, established to promote the province as a premier investment destination and promote trade by assisting KwaZulu-Natal (KZN) based companies to identify and access new markets to export their products.

1.1. PROJECT PURPOSE

The purpose of this Request for Proposal (RFP) is to solicit the services of Professional Consultants for the Design and Implementation (Professional Services only) for the Eco-Park containing a Biomass Factory, Leather Training, and Incubation Facilities. The aim of the project is to ensure that it is designed with principles that adheres to an Eco-Park and Circular Economy within the Park. A circular economy (also referred to as "circularity") is "a model of production and consumption, which involves sharing, leasing, reusing, repairing, refurbishing and recycling existing materials and products as long as possible" that aims at tackling global challenges like climate change, biodiversity loss, waste. With the project purpose stated, TIKZN is seeking proposals from suitably qualified company/companies for the development and later implementation of the project as stated above.

1.2. TERMS OF REFERENCE

It is the intention of TIKZN to enter into a formal Service Level Agreement with the successful Service Providers to provide the services described hereunder.

The Terms of Reference (TOR) would serve to guide the process of selecting and appointing qualified service providers by ensuring a match between TIKZN's requirements and the knowledge and experience of the service providers.

The RFP and the consultant's proposal will form the basis of the service level agreement to be entered into between the parties.

1.3. BACKGROUND AND SCOPE

The Provincial Government of KwaZulu-Natal (KZN) has crafted the Provincial Growth Strategy, which aligned to the National Development Plan (NDP) in charting the course into 2030. The province has identified the development of the Eco-Park as a strategic project within the Renewable sector to ensure transformation and sustainable investment opportunities for black businesses. The identified project has emanated from the EDTEA and TIKZN's priority sectors, one is the renewable sector and the second is the leather sector, the rationale is that both the sectors have a symbiotic relationship through the waste generated from the incubation training facility, therefore enhancing the development. Because the identified land is situated next to a leather tannery, and after consultation with the owners of the tannery, combining a Leather-hub Training and Incubation facility as well as a biomass Factory on the same site could very well make this a high impact project.

The project will need to be developed in phases due to financial approvals required for each phase. Although the KZN government through Economic Development, Tourism and Environmental Affairs has approved the project in its entirety, it will release funds as per each financial year, for the year 2021-22, funds have already been allocated for the Phase 1, Phase 2 at this stage; and Phase 3 and Phase 4 will be released in 22-23 budgeting cycle, aligned with the Stages of The South Africa Council for the Project and Construction Management Professions (SACPCMP).

- Phase 1: Inception & Concept and Viability – effectively Stages 1 & 2 of the SACPCMP
- Phase 2: Design Development & Documentation and Procurement: – effectively Stages 3 & 4 of the SACPCMP
- Phase 3: Construction – effectively Stages 5 of the SACPCMP
- Phase 4: Close-out – effectively Stages 6 of the SACPCMP

EDTEA has already secured a reputable investor, for the deployment of Biomass Technology for the Biomass Factory. The investors / tenants have provided a basic minimum specification for their required immovable structures – See Annexure A.

TIKZN requires a full detailed Project Plan for both Phase 1 and Phase 2 including costings. The costings for each phase needs to be separated. The successful bidder will be contracted to TIKZN through an SLA for all phases 1, 2, 3 & 4, however the details of the contract can be reviewed by both parties before signatures.

The land is estimated at 13 hectares, 3 hectares of the land has been donated to the local Municipality to maintain the waterway that exists on the land. Where the area for the Biomass Factory composting facility and the area for the Leather Training and Institutional Facilities will be approximately 5 ha and 5 hectares respectively.

1.4. SCOPE
